

„Our future: Sustainably successful!“

Balance Sheet Press Conference 2011 Financial Year
Deutsche Bahn AG / DB Mobility Logistics AG
Berlin, March 29, 2012

Highlights 2011

General conditions

- Sustained recovery of global economy (GDP world +2.5%)
- Germany as a driver of economic growth in Europe (GDP +3.0%)
- Economic development weakened during the course of the year
- Prevailing insecurities as a result of the Euro-/debt crisis
- High cost burdens due to increase in energy, personnel and maintenance expenses

Passenger transport

- Positive development of German rail passenger transport
- Growth dampened by non-recurring positive one-time effects from 2010 (among others pilot strike, volcanic ash clouds)

Transport and logistics

- Rail freight transport again with strong growth
- Varying development in freight forwarding and logistics: strong growth in European land transport, further growth in ocean freight, decline in air freight

Infrastructure

- Train-path demand reached a new all time high at 1,051 mn train-path km
- Non-Group demand showed again double digit growth rates, share of total train-path demand increased to 20.9%
